

FileMaker Pro 7

Effortlessly manage all your information

FileMaker® Pro 7 is the #1-selling easy-to-use database software and the most-customizable way to manage people, projects, images, and information. FileMaker Pro 7 helps you better organize and manage data so you can get faster access to the information you need.

Track and manage people, projects, images, and data

Do more, faster with 30 starter solutions

Publish, share, and collect data via the Internet

Exchange data with a virtually limitless number of applications

Store, track, and archive all your files and documents

Secure your data with assigned accounts and privileges

Organize all your information in one place

Finally you can have all your information in one place so you'll have instant access to the information and files you need.

- Track any type of information, including text, numbers, pictures, movies, sounds, Microsoft Word documents, Excel spreadsheets, Adobe Acrobat files, and more.
- Store as much information as you want because database size is virtually unlimited.
- Find any detail instantly by simply switching to Find mode and entering your search terms.
- Organize and view related information by easily linking data to show a more complete picture of the information. For example, instead of just viewing a single customer's contact details, you can see all their related invoices and every contact in your database for that company.

Be productive instantly

Get up and running in minutes whether you want to manage a simple mailing list or a complex inventory tracking system. With FileMaker Pro 7, it's easy to create solutions that meet today's challenges and are ready for tomorrow's.

- Comes complete with 30 starter solutions that are ready to use right away.
- Import virtually any type of information including Excel files, Access data, digital pictures, movies, and more – no data entry required!
- Use the Layout and Report Assistant to guide you through creating layouts, labels, and reports so your screens and reports look just the way you want.
- When you're ready to expand, tap into the network of FileMaker users and developers around the world for customized solutions and ideas on how FileMaker can automate even more of your business.

Securely share your data

The value of data increases exponentially when it's shared. FileMaker Pro 7 helps you securely share critical business data by:

- Extending rich business solutions to coworkers, customers, vendors, and others peer to peer or with Instant Web Publishing
- Ensuring more accurate data entry and safer updates
- Controlling your user privileges and access through a new, advanced security system

Start quickly, and manage your business better

- **30 free starter solutions** help you immediately tackle a wide range of needs and learn new database techniques. Each solution can be customized further to suit your needs—without programming experience.
- **Layout/Report Assistant** guides you through creating layouts, labels, and reports. Select from a wide array of styles, each with on-screen and print versions.
- **Drag and drop design** allows easy creation of layouts for entering, viewing, and printing information.
- **Relationships Graph** allows you to link sets of data simply by drawing a line. The intuitive interface lets you easily view, create, and maintain relationships between the tables of your solution.
- **Share it on the Web** through the enhanced Instant Web Publishing capabilities of FileMaker Pro 7. Improved rendering, additional controls, and new Web scripts enhance overall usability, making it easy to securely publish, share, and collect data via the Internet with up to 5 concurrent users.
- **Develop electronic forms** in FileMaker Pro 7 for consistent design and content that can—unlike paper forms—be electronically tracked, filed, searched, shared, archived, and secured.
- **Enhance Microsoft Office** by converting Excel spreadsheets into versatile FileMaker Pro 7 solutions; using Microsoft Word for mail merge via ODBC on Windows; creating large email distributions through Microsoft Outlook, Entourage or Mac OS X Mail; and much more.

FileMaker Pro 7 does more, so you can do more

NEW

Grow it

With virtually unlimited file sizes, and text fields that can hold one billion characters, your FileMaker solution has the power to grow as your needs grow.

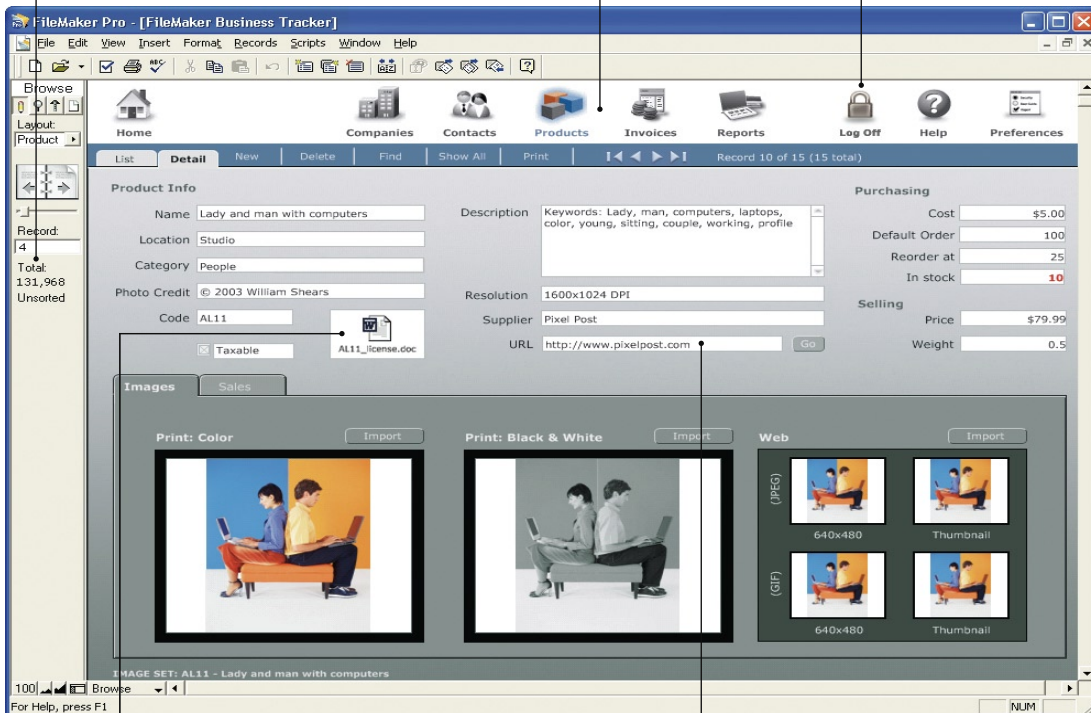

Customize it

Design custom layouts suited to your needs, output professional business reports, add your logo—all without programming.

NEW

Secure it

New security controls, features, and options protect your data from your desktop to the Web.

NEW

Store it

Organize your data by importing, storing, and exporting a variety of files types—PDFs, images, presentations, and many more. Easily create your own workgroup document management system.

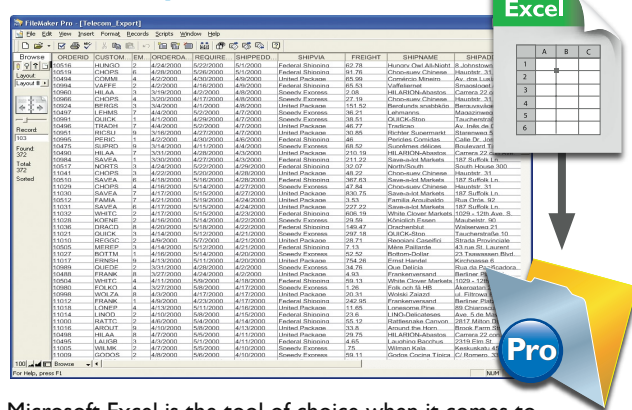

Automate it

If you can imagine it, you can quickly create it with built-in rapid-development tools like smart scripting (to automate common tasks), flexible layouts, and powerful calculations.

Share it

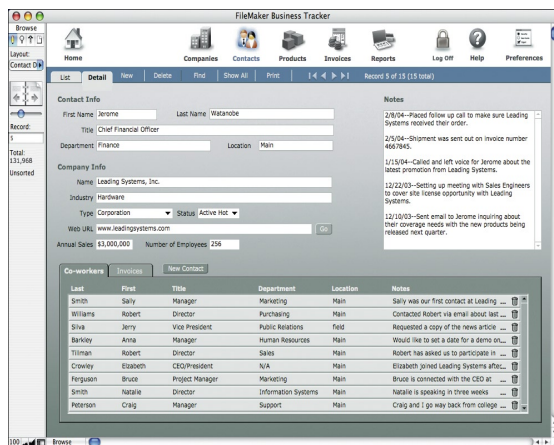

Support for ODBC, XML, and JDBC** means you can gather and share data from virtually any application or data source—regardless of its origin—in more intuitive and insightful ways.

Extend the power of Excel

Microsoft Excel is the tool of choice when it comes to crunching numbers and building charts. But for more sophisticated needs like graphics, professional reports, complex searches and sorts, or sharing your data across a workgroup, you need a database solution. Together, FileMaker Pro and Excel give you everything you need to leverage your data.

Create solutions tailored for your needs

It's easy to organize and grow your business with FileMaker Pro 7. The intuitive point-and-click interface lets you create professional solutions, reports and summaries, and customized forms with ease.

Instant Productivity

FileMaker Pro 7 delivers the most popular business, home, and education starter solutions including:

- Asset Management
- Contact Management
- Document Library
- Event Planning
- Expense Report
- Faculty Staff
- Field Trips
- Home Budgets
- Inventory
- Issue Tracking
- Lending Library
- Movie Library
- Music Library
- People Management
- Personnel Records
- Photo Catalog
- Product Catalog
- Purchase Orders
- Research Notes
- Resource Scheduling
- Task Management
- Time Billing
- Time Cards
- To Do List
- And more!

Benefits of FileMaker Pro 7

Greater business efficiency

- Share knowledge through easier-to-read, more informative reports
- New Relationships Graph lets you link data from a customer record to related invoices, simply by drawing a line
- Increase staff productivity by empowering them to access key information and collaborate on projects
- Ensure accurate data entry and safer updates

Manage more of your business than ever before

- New flexible container fields let you store/archive any file or document
- 30 starter solutions help you immediately tackle a wide range of business issues
- Develop flexible, customizable solutions which can grow with your business
- Streamline database development by consolidating all your tables into one file
- Create and modify links between your data through the new Relationships Graph

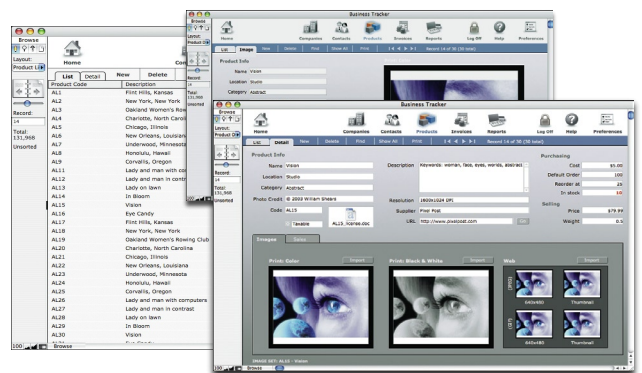

Secure your data

- New advanced security system lets you flexibly provide secure access to your data on the desktop, network, or over the Web
- New safety options allow you and your team to confirm layouts and record changes to avoid costly mistakes

Share without boundaries

- Instant Web Publishing lets you extend richer solutions to employees, partners, and customers
- XML support and many import/export formats lets you share data with a wide variety of applications

See the bigger picture

Get faster and more complete access to your information. With FileMaker Pro 7, you can easily open as many windows as you want in the same database to browse, search, and edit simultaneously—giving you the ability to see the “bigger picture” of your important data.

FileMaker

Effortlessly manage all your information
