

BRETFORD

PRE-ASSEMBLED NOTEBOOK STORAGE CARTS

T5585LL/A

Bretford's pre-assembled laptop storage cart stores and charges up to 32 computers. All steel construction with multiple-point locking doors and padlock deters theft and helps ensure the security of equipment. Finished in Aluminum powder paint.

FEATURES

- Welded and fully assembled at the factory, simply uncrate and use.
- Cart features two shelves with eight compartments per shelf for up to 32 laptops.
- Cart features a large working surface and an extra four-outlet power source to support an extra laptop, a base station and a printer.
- Shelf dividers may be removed for storing larger items.
- 32-outlet UL electrical system includes an Automatic Timer/ Charger Unit for the ability to charge all laptops using one circuit.
- Although this cart can store and power up to 32 laptops, the exclusive six quiet-glide wheels and compact size make it very easy to move around.
- Exclusive six-wheel design (two fixed in center and four swivel/ brake) allows for easy mobility and positioning.
- Ventilation holes allow for maximum air flow within the cart.
- Rear grommet holes and cord winders on the back panel allow the extra electrical power cord to be neatly wound up out of the way when moving the cart from one place to another.
- Steel construction containing 30% post-consumer recycled material with bolting doors and a re-programmable padlock helps to deter theft, padlock included.
- Doors, rear and side panels are perforated to allow the ventilation of equipment when charging.
- Built in handle aids in moving the cart.

CAPACITY

- 2 shelves divided equally into 16 compartments
- Holds and charges up to 32 laptops

SIZE AND WEIGHT

- Overall: 35¹/₂"W x 21¹/₂"D x 38¹/₈"H
- Compartments: 4³/₁₆"W x 13¹/₂"H
- Top shelf: 33"W x 20¹/₂"D
- Carton Pack: 38¹/₂"W x 25"D x 42"H
- Ship Weight: 167 lbs.
- Actual Product Weight: lbs.
- Ships by truck in one carton pack

ASSEMBLY

- Ships already assembled in one pack (no assembly required)

COLOR & FINISH

Aluminum (-AL) powder paint

POWER

- Two sources of Power
- First source includes two 16-outlet electrical units for charging laptops
- Each electrical unit mounts inside the rear of the cart
- An on/off switch can be found on each electrical unit
- Includes an Automatic Timer/Charger which allows both electrical units to be charged using one circuit
- Electrical units plug directly into the Timer/Charger
- Timer/Charger switches the electrical current from one charging unit to the other
- Timer is resettable and ships standard with a four hour charging period per electrical unit - eight hour charging time for all laptops
- Second source is a four-outlet power unit that is mounted on the cart providing power to accessory equipment
- All electrical components are UL listed and/or UL recognized

Construction

- Entire unit is constructed of 10-, 14-, 16 and 18-gauge steel
- Finish is an environmentally-safe Titanium Power Paint that resists scratching and chipping
- Ventilation holes are found on the doors, sides and back panels so units stay cool while charging
- Cart rolls on four 5" swivel stem casters on the corners and two 5" fixed plate casters in the center allowing for easy turning and moving over thresholds

Security

- Cart features a 14-gauge locking point and a 40mm resettable combination lock for both the securing of the front doors of the cart as well as the rear-access back panel.
