	Get to Know your Home and its Folders	6
	<i>What each folder in your Home window is for</i>	7
	Get to Know your Finder Window	8
	<i>Use the buttons in the Finder Window</i>	9
	Create your Own Folders	10
	Take Advantage of the Sidebar	12
	Change the View of the Finder Window	14
	<i>The Icon View</i>	14
	<i>The List View</i>	15
	<i>The Column View</i>	16
	<i>The Cover Flow View</i>	18
	Quick Look/Slideshow button	19
	Use the Dock	20
	<i>Is the Dock missing?</i>	21
	<i>Documents and Downloads folders in the Dock</i>	22
	Use the Trash	24
	Take Advantage of Keyboard Shortcuts	26
	<i>Recognize the common modifier keys</i>	26
	<i>Use a keyboard shortcut</i>	27
	<i>Notice gray vs. black commands</i>	27
	Learn More About Mac OS X	28
	<i>Tool tips</i>	28
	<i>Hover tips</i>	29
	<i>Visual clues</i>	30
	<i>Help files</i>	32
	<i>Support pages</i>	33
	<i>Mac video tutorials</i>	33
	<i>MobileMe tutorials</i>	33

2 A Bit Beyond the Basics	35
Understand the Various Disk Icons	36
<i>Shared</i>	37
<i>Places</i>	37
<i>Search For</i>	37
<i>View your Home folder from the hard disk</i>	38
Understand the Various Library Folders	39
Select Multiple Items in the Finder	40
<i>In the Icon View</i>	40
<i>In the List View or Column View</i>	40
Exposé	42
Dock Exposé	44
Look for Contextual Menus	46
Use Keyboard Shortcuts in Dialog Boxes	48
Navigate the Desktop and Finder Windows	50

MAC OS X APPLICATIONS IN SNOW LEOPARD

3 Introduction to Mac OS X Applications	53
Know your Applications Folder	54
Application Integration	55
What We're Not Covering!	55
Know the Common Features of Mac Apps	56
4 TextEdit for Word Processing	61
Read Microsoft Word Files	62
<i>Change the default application to open Word files</i>	62
<i>Save TextEdit files as Word docs</i>	63
<i>Save TextEdit files as PDFs</i>	63
Find and Replace Words or Phrases	64
Paste Text to Match the Existing Text	65
Use your Favorite Text Styles Easily	65
Complete your Word Automatically	66
Use Typographer's Quotes!	67
Tabs and Indents	68
<i>Examples of tab and indent settings</i>	68
Create Lists that Number Themselves	70
Create Tables	71

Create Live Web Links and Email Links	72
Select Non-Contiguous Text	73
Print Automatic Page Numbers	74
Use Data Detectors	75
Extra Tips and Notes	76
Show Substitutions	76
Standard Mac OS X Application Features	77
TextEdit is Integrated With	77
Other Relevant Lessons for TextEdit	77
5 Mail for Email, Notes, and To Do Lists	79
New Account Setup Assistant	80
Check your Dock Icon	83
Read and Send Email	84
Customize the Message Window	86
Do Not Display Junk Mail!	87
Delete Junk Mail Without Ever Seeing It!	87
Use Stationery to Send Fancy Email	88
<i>Save as stationery</i>	89
Create Mailboxes to Organize your Mail	90
Filter your Incoming Mail with Rules	91
Add Signatures to your Messages	92
Search your Mail	94
Smart Mailboxes	95
<i>Create Smart Mailboxes</i>	96
Amazing Data Detectors	97
To Do Items	98
<i>To Do items in Mail's sidebar</i>	100
<i>Automatic data detection for events</i>	101
<i>About the calendars</i>	102
<i>Use the columns to assign options</i>	103
Notes	104
<i>Create a new Note</i>	104
<i>Format and add attachments to a Note</i>	105
<i>View Notes in Mail</i>	105
Attachments	106
Downloads Folder	109
Priority Options	110
Use the Standard Application Features	111
Mail is Integrated With	111

6	Address Book for Contact Info	113
	How you'll Use your Address Book	114
	Make and Edit New Cards	115
	<i>Add a photo to a card</i>	116
	Designate your Own Card	117
	Customize One Card or All Cards	118
	Check Out the Options	119
	Map It	119
	Create Group Mailing Lists	120
	Create Smart Groups in Address Book	121
	Search your Address Book	122
	Send your Address Book card to others	123
	Share your Address Book Contact List	124
	<i>Subscribe to someone's Address Book</i>	125
	Print in a Variety of Ways	126
	Backup your Entire Digital Database	128
	Address Book is Integrated With	129
7	Safari for Web Browsing and News	131
	Safari Web Browser	132
	<i>Enter a new web address quickly</i>	132
	<i>Watch for visual clues</i>	132
	Quickly Access your Top Sites	133
	Bookmarks in Cover Flow View	134
	Bookmarks	135
	Fill in Forms and Passwords Automatically	136
	Block Pop-Up Windows!	136
	SnapBack to a Results Page or Other Page	137
	Quickly Enlarge or Reduce a Web Page	137
	Tabbed Browsing	138
	Find a Word or Phrase on the Current Page	139
	Email a Web Page or a Link to a Web Page	140
	View PDF Documents	140
	Save a Page and Everything on It	141
	Make a Web Clip Widget	142
	Print Web Pages	143
	Private Browsing	144
	Parental Controls	145

So What is RSS?	146
<i>View all existing RSS feeds in Safari</i>	147
<i>Find other feeds</i>	148
<i>View all RSS articles in a collection</i>	149
<i>Bookmark your favorite feeds</i>	149
<i>Auto-Click to view all pages or feeds in tabs</i>	150
<i>View RSS feeds in Mail</i>	151
<i>Change the RSS preferences</i>	151
<i>Send an RSS feed to a friend</i>	152
<i>Subscribe in Mail</i>	152
<i>Use RSS feeds as a screen saver</i>	152
Cool Safari Tips	153
Safari is Integrated With	153
8 iCal for Organizing your Life	155
The iCal Window	156
Create Calendars	157
Create a Group of Calendars	157
Automatic Birthdays Calendar	158
Create Events	159
Create To Do Lists	160
<i>Email a To Do item</i>	160
Email Notifications	161
Link Events and To Dos	162
Sort (Organize) your Information	162
Backup the Entire Calendar of Information	162
Preview Files Attached to Events	162
Publish your Calendar	163
Subscribe to Calendars	163
Print in a Variety of Ways	164
iCal is Integrated With	165
9 iChat for Text, Audio, and Video Messaging	167
Set up iChat	168
<i>A sample Buddy List and chat</i>	169
Create a Buddy List	170
Chat with One Other Person	171
Chat with a Group of People	171
Audio Chat with One or More	172
<i>Open an audio chat and invite others to join you</i>	173

Video Chat with up to Three Other People	174
<i>With whom can you video conference?</i>	174
<i>iChat AV preferences</i>	174
<i>Open a video chat and invite others to join you.</i>	175
iChat Effects	176
<i>Add backgrounds</i>	177
iChat Theater	178
<i>Share iPhoto with iChat Theater</i>	179
Bonjour on your Local Network.	180
Record Chats	182
<i>Find recorded chats</i>	182
iChat is Integrated With	183

10 iTunes for your Listening Pleasure 185

The iTunes Window.	186
Buy Music, Movies, or Television Shows.	187
Download Album Art	187
Create a Playlist	188
Create a Smart Playlist	189
Import Songs from a CD.	189
Share the Wealth	189
Adjust the Sound	189
Watch Movies in iTunes	190
Tune in to Visual Effects	191
Add a Ringtone to your iPhone	191
Burn a CD of your own Collection.	192
Listen to Radio from around the World	193
iTunes DJ, Genius Playlist, and Genius Sidebar	194
Print a CD Cover Insert.	195
iTunes is Integrated With	195

11 Preview for Viewing Images and PDFs 197

Open an Image or Folder of Images	198
Sort the Images or Email Them	199
Rotate, Reduce, or Enlarge the Image	199
View a Slideshow	199
Display Facing Pages or Continuous Pages	200
Crop a Photograph or Other Image	201
Crop a PDF.	202

Search a PDF	204
Create Bookmarks.	205
Annotate a PDF.	206
<i>Create a link on an existing PDF</i>	208
Copy Text from a PDF to Paste Elsewhere.	210
Adjust the Colors in Images or Photographs	211
Fill in PDF Forms	212
Import Images from a Camera or Scanner	212
Make Screenshots using Preview	213
Print or Fax from Preview	214
Save as Another Format	215
12 Miscellaneous Tools on your Mac.	217
Burn a CD or DVD with a Burn Folder	218
DVD Player	220
<i>Display the thumbnail bar and controls</i>	220
<i>Create bookmarks to find specific points in the video</i>	220
<i>Create your own clips with endpoints</i>	221
<i>Make adjustments</i>	221
<i>Create your own personal disc jacket on the screen</i>	222
<i>Go back to the Finder.</i>	222
Create PDF Files	223
Font Book	226
<i>Preview fonts you haven't installed</i>	226
<i>Install fonts.</i>	226
<i>Preview fonts you have installed.</i>	227
<i>Create your own Collections.</i>	227
Stickies	228
Photo Booth	230
<i>Take a still picture</i>	230
<i>Make a movie clip.</i>	231
<i>Add effects to snapshots</i>	232
<i>Create a special effects backdrop.</i>	233
QuickTime Player	234
<i>Play a movie or audio file</i>	234
<i>Share a movie</i>	236
<i>Trim a movie or audio file</i>	236
<i>Make a new movie recording</i>	238
<i>Make a new audio recording.</i>	238
<i>Make a new screen recording</i>	239

15 Common Tools in Mac OS X Applications.	241
Spell Checker	242
Fonts Panel	246
<i>Preview</i>	246
<i>Effects</i>	247
<i>Collections</i>	247
<i>Favorites</i>	247
<i>Action button options</i>	247
Character Palette	248
Colors Panel	250
Speech	251
<i>Have your email read out loud.</i>	251
Preview your Page before Printing	252
Make a PDF of a Page or Document	252
Dictionary Panel	253
14 Working between Mac OS X Applications	255
Work with Multiple Applications at Once	256
<i>Switch between all applications.</i>	256
<i>Switch back and forth between two applications.</i>	257
<i>Quit or hide applications.</i>	257
Spaces	258
Simplify your Work with Drag-and-Drop	261
<i>Move text around in a document window</i>	261
<i>Move text from one application to another</i>	262
<i>Make a text clipping on the Desktop.</i>	262

 - Set up screen sharing* 392
 - Check the network for local screen sharing options.* 393
 - Screen Share locally through the Go menu.* 394
 - Screen Share globally through Bonjour and iChat* 395
- Disconnect 397

22 Basic Troubleshooting	399
Robin and John's Personal Troubleshooting	399
Force Quit an Application	400
Relaunch the Finder.	401
Restart	401
Shut Down	401
Delete the Application Preference File.	402
Safe Boot	403
Repair Permissions	404
Verify and Repair Disk	405
Check for Software Updates	406
Create Another User and Test	406
If you Forgot your Password	407
Report Crashes.	407
Use Target Disk Mode	408
Force a CD or DVD to Eject	409
23 Secure your Mac and its Files	411
Know your Security Options	412
Passwords on your Mac	413
<i>Password tips</i>	414
Security System Preferences	415
Low-Level Security Features	417
<i>Auto login</i>	417
<i>Require a password to wake your Mac</i>	418
Higher-Level Security Features.	419
Use Keychain Access for Protection	420
Consider FileVault for Heavy-Duty Protection.	422
Laptop Precautions	424
24 Upgrade your Mac and Migrate your Files	426
Upgrade to Snow Leopard	426
Install Snow Leopard	426
Take Advantage of the Utilities in the Installer	402
Do you Now Own Two Macs? Migrate!.	403
<i>Requirements for the Migration Assistant</i>	404
<i>Migrate additional users</i>	405
<i>What to do after migrating</i>	405
Other Ways to Transfer Files from Mac to Mac	406

THE END **MATTERS**
